POSTDOCTORAL FELLOWSHIPS – PFs

What are the MSCA – Postdoctoral Fellowships?

Postdoctoral Fellowships provide funding to individual researchers who wish to carry out a career boosting research project either in an academic or non-academic Host Institution (beneficiary), in a EU Member State or Associated Country. The goal of Postdoctoral Fellowships is to enhance the creative and innovative potential of experienced researchers who are pushed to diversify their personal expertise and skills by investing in advanced training as well as international and intersectoral mobility.

How to apply?

All relevant documents are available on the “*Funding and Tenders Opportunities*” Portal, which allows you to access the submission system, at this [link](#). When writing the project, please carefully consider the following documents:

- ✓ *MSCA Work Programme*
- ✓ *MSCA PF Guide for Applicants*

Type of Fellowship

European Fellowships (EF) – are open to researchers of any nationality moving within Europe or coming in from other areas of the world. The Host Institution must be based in a EU Member State (MS) or Associated Country (AC). Duration of the fellowship: 12-24 months.

Global Fellowships (GF) – are open to researchers based in a MS or AC (EU/AC nationals or long-term residents) and foresees a mandatory outgoing phase to a Third Country (12-24 months) and a return phase (12 months) to a MS or AC.
